

INSTALLATION INSTRUCTIONS

7033, 7053, 7113 (RH-IN/LH-OUT SURFACE MOUNTED HINGES)

Note: Before beginning the install make sure that pilasters are plumb and level.

1. Separate top hinge assembly and install the hinge with the pintle facing upward on the pilaster(post).
(figure 1)
2. Install remaining leaf with cam on Door. (figure 2). Remember to leave a minimum of 1/16" spacing between the door and the pilaster.(figure 4)
3. Separate bottom assembly and install hinge with pin facing downward on the pilaster.
(figure 3)
4. With the door in the "rest" position (fully closed) put the last hinge leaf of the bottom assmebly back into position.(figure 4) Leave 1/2" space between hinge leaves for door lift. Mark hole location for drilling.
Check door and pilaster is plumb and level.
5. Install remaining hinge leaf and install retainer clip for pin.
(figure 5)
6. To adjust door opening remove pintle from hinge leaf and turn to desired position by using the adjusting tabs, reinstall pintle.
(figure 6). All hinges are pre-set to "0" degrees.

Note: Hinges are for medium-Duty installations..
